Notes re the Sutton Forest registers:

Church Registers

The entries from the Sutton Forest church registers covering the years 1828 to 1856 (and beyond) are found in the Society of Australian Genealogists' microfilm reels 3076-77 (held by SAG). For more information, see *Index to the Microform Collection of the Society of Australian Genealogists as at 31 January 1990* (SAG, Sydney, 1990, p.105). These are also found in ARK volume 44 (as shown above) which was the source of the transcriptions used by BDA.

Clergy Returns

These are copies of the church registers sent to the government (similarly to the Bishop's Transcripts in England), and begin in 1828 for Sutton Forest. These are published in the various ARK volumes.

Kerrison James Index

This index was not used as a transcription source for these BDA entries as it is merely an index extracted from the church registers and contains many errors.

NSW Registry of Birth, Death & Marriage Indexes

For the pre-1856 period, the online Indexes published by the NSW Registry of Births, Deaths and Marriages provides index entries for baptisms, marriages and burials found in registers they hold.

For Ryde, the BDM Indexes source entries from:

1. The Kerrison James Index listed above; that is Volumes 1-3 of ARK;
2. The Clergy Returns published in ARK.

***Not used:** These sources are copies of the originals and were only used if the originals proved difficult to read.
