Kerrison James	1826	1831	SRNSW: ARK Reel 5001, Vol. 2	Not used*

Notes re the St Peters registers:

Church Registers

The entries from the Campbelltown church registers were used for BDA's transcriptions of baptisms, marriages and burials as the St Peters archivist kindly lent us a CD-ROM with digital images of the register. Unfortunately, copies of these registers are not available in the Mitchell Library or any other record repository so anyone interested in accessing the registers either has to approach the church directly or use the Clergy Returns.

Clergy Returns

These are copies of the church registers sent to the government (similarly to the Bishop's Transcripts in England), and begin in 1826 for Castlereagh and continue until 1856. The copies of the Clergy Returns found in the ARK volumes are identical to the Church Registers so these were only examined if specific entries in the original registers were difficult to read.

Kerrison James Index

This index was not used as a transcription source for these BDA entries as it is merely an index extracted from the church registers and contains many errors. Sometimes, however, the Kerrison James list was examined if specific entries were difficult to read in the pre-1826 period.

NSW Registry of Birth, Death & Marriage Indexes

For the pre-1856 period, the online Indexes published by the NSW Registry of Births, Deaths and Marriages provides index entries for baptisms, marriages and burials found in registers they hold.

For the pre-1826 period for Campbelltown, the BDM Indexes source entries from the Kerrison James Index listed above; that is Volumes 1-3 of ARK;

For the period from 1826 onwards, the BDM Indexes source entries from the Clergy Returns listed above. These are published in ARK.

*Not used: These sources are copies of the originals and were only used if the originals proved difficult to read.

For more detailed information about the different types of church registers and for the list of other church registers included in the BDA see
